2010 FINANCIAL STATEMENTS

SASKATCHEWAN GOVERNMENT
GROWTH FUND

INDEPENDENT AUDITOR'S REPORT

To the shareholder of Saskatchewan Government Growth Fund III Ltd.:

We have audited the accompanying financial statements of Saskatchewan Government Growth Fund III Ltd., which comprise the statement of financial position as at December 31, 2010, and the statements of operations and comprehensive income (loss), deficit and accumulated other comprehensive income and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian generally accepted accounting principles, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements present fairly, in all material respects, the financial position of Saskatchewan Government Growth Fund III Ltd. as at December 31, 2010, and its financial performance and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

See accompanying notes to the financial statements.

Saskatchewan Government Growth Fund III Ltd.
Notes to Financial Statements
December 31, 2010

1. Status of the Corporation

Saskatchewan Government Growth Fund III Ltd. ("SGGF III" or the "Fund") was incorporated in October 1994 under *The Business Corporations Act* (Saskatchewan) and has been accepted as a government administered venture capital fund under the federal government's Immigrant Investor Program ("IIP"). Under this program, the Fund was established to raise $35,000,000 through a note offering. Each note is a 2% unsecured, subordinated debt instrument with a principal amount of $250,000, repayable in five years provided that 70% of the proceeds are invested in eligible businesses ("Notes") throughout the five year period. The Fund commenced operations in 1994. The marketing period for the Fund ended on July 31, 1997.

The Confidential Offering Memorandum ("Memorandum") and the IIP prescribe various conditions which qualify an investment as an eligible business, including a requirement that the business be Saskatchewan based and have assets, including assets of associated companies, of less than $35 million.

The Government of Canada and the Government of the Province of Saskatchewan offer no guarantees or assurances on the financial performance of the Fund or of a return of an investor's original investment. Neither government will be liable for any loss or damages suffered by an investor as a result of an investment in the Notes.

As described above, the Fund's purpose is to issue the Notes and make investments in accordance with the IIP. When the Notes mature, the Fund divests its investments, in due course, as appropriate opportunities arise. The investments are the Fund's only source of revenue. The Fund's activities will cease when all investments have been divested which is expected to occur in 2011. The proceeds will be applied to the balances outstanding under the Notes. As described in note 7, it is unlikely that the Fund will be able to repay the full principal amount of Notes; however, in the event that there are residual resources from the liquidation of investments after payment of the full principal amount of the Notes, then such residual amounts will be distributed to the shareholder.

2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles. The following are considered significant:

Financial instruments

All financial instruments are classified as one of: (a) held-to-maturity; (b) loans and receivables; (c) held-for-trading; (d) available-for-sale; or (e) other liabilities. Financial assets and liabilities held-for-trading are measured at fair value with gains and losses recognized in net income. Financial instruments classified as held-to-maturity, loans and receivables and other liabilities are measured at amortized cost. Available-for-sale financial instruments are measured at fair value, with unrealized gains and losses recognized in comprehensive income. Accumulated other comprehensive income is reported as a separate component of

Saskatchewan Government Growth Fund III Ltd.
Notes to Financial Statements (continued)
December 31, 2010

shareholder's equity. Embedded derivatives are accounted for as separate financial instruments and classified in accordance with the above-noted classifications. Investment companies are exempt from these accounting policies with respect to investments and are permitted under Accounting Guideline 18 of the Canadian Institute of Chartered Accountants ("CICA") to measure and report investments at fair value.

The Fund has designated its cash as held-for-trading, which is measured at fair value. Accounts payable, investor Notes and other liabilities are classified as other financial liabilities which are measured at amortized cost. The Fund has no embedded derivatives that need to be separately valued. Investments are measured and reported at their fair value.

Fair value measurements are classified using a three-level fair value hierarchy. "Level 1" financial instruments are valued using quoted prices (unadjusted) in active markets for identical assets or liabilities; "Level 2" financial instruments are valued using observable inputs other than quoted prices included in Level 1; "Level 3" financial instruments are valued using unobservable inputs for the asset or liability. The Fund has classified its cash as Level 1, and its other investments as Level 3. Disclosures related to Level 3 investments are included in note 4.

Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may vary from the current estimates. These estimates are reviewed quarterly and adjustments are reported in the Statement of Operations and Comprehensive Loss in the period in which they become known. The primary measurement uncertainty which may affect the reported amounts relates to the determination of fair values of other investments as described in the following pages.

Revenue recognition

The change in fair value of investments during the year is included in the Statement of Operations and Comprehensive Income (Loss).

Fair values of investments are determined by management on the basis of the expected realizable value of the investments as at the date of the financial statements if they were disposed of in an orderly manner over a reasonable period of time, discounted at a discount rate which is appropriate at the date of the financial statements to investments in similar companies. There is no active secondary market for many investments which are not publicly-traded, and there is considerable uncertainty and a potentially broad range of outcomes with respect to the future cash flows from these investments. Valuations of such investments are subject to a number of assumptions and uncertainties that may cause actual

Saskatchewan Government Growth Fund III Ltd.
Notes to Financial Statements (continued)
December 31, 2010

values realized on disposal to differ materially from the fair value estimated at any particular time.

3. Provisions of the IIP

Minimum holding period and maturity of the Notes

A Note is issued to evidence receipt of the full subscription amount on the date that at least 70% of the subscription amount has been invested in eligible businesses. Each Note is scheduled to mature five years from such date, provided the Fund maintains at least 70% of the Note continuously invested in the active business operations of eligible businesses for five years following the issuance date. The IIP contains provisions which require that the maturity date of a Note be extended if, and for such period that, a minimum of 70% of the Note amount ceases to be invested in the active business operations of eligible businesses.

4. Investments

	2010	2009
Equity instruments, Level 3 financial instruments	**$ 3,052,284**	$ 3,052,284
Adjustment to fair value	**(2,852,284)**	(3,015,348)
Carrying value, Level 3 financial instruments	**$ 200,000**	$ 36,936

During the year, Level 3 financial instruments changed as follows:

	2010	2009
Balance, beginning of year	**$ 36,936**	$ 5,398,995
Sale of investments	**(47,579)**	-
Gains (loss) recognized in net income	**210,643**	(5,362,059)
Balance, end of year	**$ 200,000**	$ 36,936

5. Commission payable

According to the terms of a marketing agreement entered into by the Fund, a commission is payable to the independent marketing agent selling the Note upon issuance of the investor's immigrant visa.

6. Subscription deposits

Subscription deposits represent partial deposits on Notes received prior to 1997 which have not yet been refunded to investors. The Fund was closed to deposits in 1997 and investors who have made partial subscriptions have no right to complete their subscription.

Saskatchewan Government Growth Fund III Ltd.
Notes to Financial Statements (continued)
December 31, 2010

7. Investor Notes

Investor notes represent the Notes issued to investors of the Fund. The Notes help to satisfy a portion of investors' visa requirements under the IIP. Interest to the maturity date of Notes is accrued at an annual rate of 2% from the date of Note issuance and is paid annually on December 31 until maturity and at maturity. The balance at December 31 is:

	2010	2009
109 Notes	**$ 9,265,000**	$ 9,265,000

All Notes have matured. The balance is comprised of 109 unsecured subordinated Notes with a remaining principal balance of $85,000 each.

The Notes are subordinate to all other liabilities of the Fund and repayment is dependent on the proceeds on liquidation of investments and other available liquidity in excess of other liabilities.

As a result of differences in the timing of proceeds from investments and scheduled maturities of Notes, the Fund set repayments on each Note at its maturity, beginning in January 2002, at $150,000. In 2003, this amount was increased to $160,000 with a further increase to $165,000 in 2004. Based on the current outlook for the disposal of the remaining investments held by the Fund, it is unlikely that the Fund will be able to repay the full remaining principal amount of the Notes.

8. Share capital

The authorized common share capital of the Fund at December 31 is:

Class A common shares – an unlimited number of voting common shares. Holders of these shares are not entitled to receive dividends.

Class B common shares – an unlimited number of voting common shares. Holders of these common shares are entitled to receive dividends.

The issued common share capital at December 31 is:

	2010	2009
2,000 Class A common shares	**$ 2,000**	$ 2,000

9. Financial risk management

The Fund's primary business was the raising of capital from immigrant investors and placing these funds in new and expanding Saskatchewan businesses. This investment activity entails exposure to market risk, including currency, interest rate and other pricing risks, credit risk,

Saskatchewan Government Growth Fund III Ltd.
Notes to Financial Statements (continued)
December 31, 2010

liquidity risk and capital risk. These risk factors may impact the Fund's ability to repay its Notes at maturity. These risk factors are described below.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. Currency risk is the risk that future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. While the Fund invests only in Canadian-dollar denominated investments, thereby matching the currency of its Notes, investee companies may be exposed to fluctuations in currency rates because of sales denominated in foreign currencies. Interest rate risk is the risk that the Fund's earnings will be affected by fluctuations in interest rates. Other price risk includes other factors that affect market prices, other than currency and interest risk. This may include the ability of an investee company to profitably distribute its products. Most of the companies in which the Fund invests are dependent upon a single product or industry. The Fund manages this risk through careful due diligence prior to committing funds to the investment and by diversifying its investments across various industry sectors. In general, if market risks adversely affected the value of investments by 10%, net income and amounts available to repay Notes would be reduced by approximately $20,000, and alternatively favourable effects would increase net income and amounts available to repay Notes by the same amount.

Credit risk

Credit risk is the risk that a counter party will fail to discharge its obligations. Concentration of credit exposure may arise given that the Fund restricts its investments to businesses operating in Saskatchewan and therefore all investments are subject to a similar general economic environment. The Fund conducts thorough due diligence prior to committing to an investment and actively monitors the financial health of its investees on an on-going basis. The Fund has no investments in debt instruments and therefore has no exposure to credit risk.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in liquidating its investments at the time it is required to repay its Notes. Due to the nature of some of the Fund's investments, the timing of cash flows from its investments may not exactly match the payments owing under the Fund's Notes. The Fund carefully monitors the duration of its investments. However, timing differences may require the Fund to reduce or delay the payments owing on Notes at maturity. As a result of investment losses, it is unlikely that the Fund will be able to repay the full principal amount of Notes.

Capital risk and disclosure

Capital risk is the risk that the Fund will not have access to capital to finance its operations. The Fund has no sources of capital from which to draw on in the event that the proceeds of

Saskatchewan Government Growth Fund III Ltd.
Notes to Financial Statements (continued)
December 31, 2010

investments are insufficient to repay Notes. The Fund is not subject to externally imposed capital requirements.

Fair value – investor notes

No secondary market for the Notes exists. Due to the unique features associated with the Notes, the calculation of a fair value with appropriate reliability is impractical. The risk factors that affect the fair value of investments, as described above, also affect the fair value of investor notes. Repayment of these Notes at maturity is dependent upon the value and liquidity of investments at that time.

10. Administration

Under the terms of a management agreement between the Fund and Saskatchewan Government Growth Fund Management Corporation ("SGGF Management Corporation"), SGGF Management Corporation administers the assets of the Fund with the assistance of a manager that performs fund administration and investment management together with several investment subadvisors. SGGF Management Corporation does not guarantee the financial performance of the Fund. Services provided to the Fund are charged on a fee for service basis. Effective March 31, 2009, Management Corporation was wound up into Crown Investments Corporation of Saskatchewan ("CIC") and CIC assumed the responsibilities of Management Corporation under the management agreement. Prior to April 1, 2009, all administration costs were billed by Management Corporation to the Fund. Subsequent to March 31, 2009, the Fund directly incurred its costs of administration with the exception of fees paid to the manager which are paid by CIC and reimbursed by the Fund. Administration costs incurred by the Fund, including those billed by CIC subsequent to March 31, 2009 and by SGGF Management Corporation prior to April 1, 2009 are as follows:

	2010	2009
Manager's fees	$ 976	$ 74,433
General administration	390	490
Directors' fees and expenses	481	907
Legal and professional	6,267	6,369
	$ 8,114	$ 82,199

11. Income taxes

A provincial Crown corporation, CIC (prior to April 1, 2009, SGGF Management Corporation), owns all of the issued shares of the Fund. Therefore, the Fund is exempt from income taxes.

12. Related party transactions

Included in these financial statements are amounts resulting from transactions with CIC subsequent to March 31, 2009 and by SGGF Management Corporation prior to April 1, 2009 pursuant to a management agreement referred to in note 10. Routine operating transactions

Saskatchewan Government Growth Fund III Ltd.
Notes to Financial Statements (continued)
December 31, 2010

with related parties are recorded at agreed upon exchange amounts and settled under normal trade terms. Total fees charged to the Fund by CIC and SGGF Management Corporation amounted to $976 (2009 - $74,433). Total fees payable to CIC at December 31, 2010, and included in the above, are $976 (2009 - $2,147).

13. Contingencies

The Fund indemnifies contracted parties in connection with services provided. From time to time the Fund or such parties may be defendants in litigation. It is not possible to predict the ultimate outcome of any outstanding litigation or estimate any costs which might result.

14. Comparative figures

Certain of the prior year figures have been reclassified to conform to the presentation adopted in the current year.

FIVE YEAR FINANCIAL SUMMARY (UNAUDITED)
